

CONGRATULATIONS!

HIPPY PROGRAM GRADUATION

HIPPY is an internationally-recognized home-visiting program focused on parent-child learning, designed to remove barriers and to reach low income families with limited education to become the child's first teacher.

Home visitors work with participating parents once a week for 30 weeks to role play and review HIPPY activity packets and story books.

The families attend monthly group meetings to promote social networking as well as a graduation upon completing 2-3 years of HIPPY curriculum as this is the first of many graduations.
